

Alternative Fuel Replacement Components

Luxfer Gas Cylinders is the world's largest manufacturer of high-pressure composite cylinders. More than five million full-wrapped Luxfer composite cylinders have an exemplary record of safety and dependable performance in a variety of demanding applications worldwide. Luxfer is the only major cylinder manufacturer that offers both Type 3 and Type 4 cylinders.

In addition to cylinders, Luxfer offers a superior line of gas-management devices, high-flow valves, PRDs (pressure-relief devices), neck blocks, strap mounts, end plugs. Also available are complete cylinder kits for Alternative Fuel applications.
