

Environmental Management Policy

Luxfer Gas Cylinders Riverside is a manufacturing facility which produces aluminum liners and high-pressure composite and steel cylinders. Key markets served by our products include Alternative Fuel, SCBA, Life Support, Medical, Inflation, Aerospace, Military, Paintball, and Oil and Gas Sampling. Our products are supplied to countries around the world.

As an organization we recognize that our business operations can have an impact on the environment and we strive to minimize that impact through identification, resolution and review of environmental objectives and targets. The environmental management system is essential to the realization of this activity and shall be documented, implemented, maintained and in accordance with the requirements of the ISO 14001 standard.

At Luxfer Riverside we are committed to:

- Complying with all applicable Federal, State and Local Environmental Regulations as well as any other environmental requirements to which we may subscribe.
- Preventing pollution.
- Developing and reviewing environmental objectives and goals to drive continual improvement of our environmental management system and performance.

Luxfer Riverside will communicate this Environmental Management policy to all employees and to all persons working on behalf of the organization. Additionally, this policy shall be made available to the public.

On behalf of the Luxfer Riverside Leadership Team

Howard Mead

Vice President and General Manager
